

SAFETY INSTRUCTIONS FOR THE PUBLIC

To watch a car race safely, it is important to find well-protected observation points, preferably elevated, and follow the instructions of the Road Marshals. Official positions are often marked with signs and flags. In the case of events such as a hill climb, it is advisable to find out about the areas reserved for the public and respect the boundaries to avoid danger.

Follow the instructions of the Road Marshals
and the Police.
The outcome of our event also depends on your
collaboration.

Thank you!
